## THE FUTURE OF FOOD

*Message from Devour! Directors*  
**MICHAEL HOWELL & LIA RINALDO**

Since 2009, Devour! The Food Film Fest has aspired to change how we think about food through the lens of film. Change is imminent. Climate and environmental impacts can be felt everywhere from hurricanes to the changing polar ice caps. We can better understand our world if we can see it and know more about the effect human activity is making on this beautiful planet.

This year's program is meant to challenge you to think a little differently, to make some choices that can help affect change. We want to tell every story and not just a one-sided picture of a rosy world. It is time to act differently, buy differently, grow differently and eat differently. We encourage you to bring an open mind to this year's festival and hopefully take away some life-changing ideas, habits and skills and recognize that we are all in this together. We can all make a difference.

### WE HAVE AND WILL CONTINUE TO PARTNER WITH OUR FIRST NATIONS PEOPLES

**WE ARE IN MI'KMAKI**, the ancestral territory of the Mi'kmaq who have been living on these lands since time immemorial. We acknowledge the treaties of peace and friendship and we thank the Mi'kmaq people for their generosity in sharing their homeland with us. We recognize this is a small, but meaningful step in reconciliation and the continued efforts of a strong Nation-to-Nation relationship. **WE ARE ALL TREATY PEOPLE.**
